Why Buy the Mincon 3?

The Mincon 3 is a superior but versatile Hammer, specifically built for drilling applications where high penetration speeds are vitally important. Its unique design concept provides much greater impact energy and ultimate drilling performance for absolute maximum productivity in almost all ground conditions.

Like all Mincon DTH hammers, the Mincon 3 maintains excellent operating pressure over an extended service life and overall is the tool you require to get the maximum out of all your equipment.

Mincon Products are all manufactured in house, and all processes are carried out under the one roof. This guarantees that the quality you “Expect” is always delivered.

Design Highlights:

- Patented features maximize energy output and reduce service requirements.
- Fewer internal components minimize service requirements.
- Valveless, high frequency design ensures smooth operation.
- Hardened wear sleeve for optimum wear resistance even in the most abrasive conditions.
- Multi-start threads on backhead and chuck ensure easy coupling/uncoupling of hammer.
- Unique internal mount system eliminates the need for wear shims and special assembly tools.
- All critical internal components are heat treated under strict control to maximize tool longevity.
- An overall cost-effective and user-friendly tool for use in the most demanding conditions.

Applications:

- Blast Hole
- Underground Mining
- Environmental
- Exploration
- Construction
- Applications where limited supplies of air available
